## Government Services

*A function of teamwork...*

*Community Planning*

*Contract Services*

*Landscape Architecture*

*Environmental Review*

*Visual Simulations*

*GIS and Digital Technologies*

## GIS and Digital Technologies

**FORMA** Systems include the most current technology to develop base planning graphics from digital sources to ensure accurate information required to reach reliable and concise land use decisions.

- GIS system implementation*
- GIS application development*
- GIS mapping and analysis*
- Digital illustration*
- CADD graphics*

- Planning*
- Design*
- Landscape Architecture*
- Entitlement Services*
- Mapping and Presentations*
- Environmental Studies*
- Resource Management*

*... and the application of technology*

## Landscape Architecture

**FORMA** is a leader in landscape design and provides construction management services to local agencies to ensure timely and cost effective implementation of design projects.

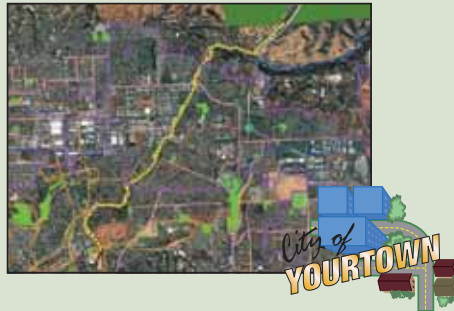

- Park and recreation design*
- Construction drawings*
- Cost estimating*
- Streetscape design*
- Design Guidelines*
- Gateway monumentation design*

## Community Planning

**FORMA** has developed and processed numerous regulatory documents at local, State, and Federal levels that emphasize comprehensive site design, implementation programs and sustainable development.

- Specific Plans*
- Development Regulations*
- Redevelopment strategies*
- Master Planning*
- Site design*
- Local coastal programs*

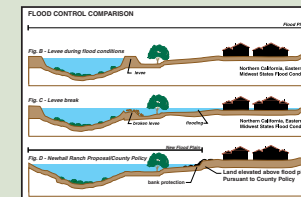

## Environmental Review

**FORMA** has broad experience in both design and implementation of projects with environmental components that emphasize conservation, compatibility, and quantifiable habitat preservation.

- Mitigation monitoring*
- State and Federal permitting*
- Ecotonal buffer design*
- Habitat management and restoration*

## Contract Services

**FORMA** has assisted both new and established cities with their short term and long term staffing needs.

- Development application review*
- Community meeting materials and management*
- Public hearing reports and presentations*
- Plan checking*
- Landscape Architecture*
